

Magik Kids Theme – Installation & Configuration Instruction

Magik Kids is a Magento theme specifically built for stores that are selling different types of toys, games etc for kids. You can buy, download and get the theme up and ready on your site very quickly. The theme is tested across all popular browsers, is designed to be SEO friendly and is built without altering the code Magento theme structure so you can make small customizations easily. Magik Kids play nice with all the major browsers. The following browsers have been personally verified by us: Internet Explorer 6.0+, Firefox 2+, Opera 9+, Safari 3+ and Chrome 0.2+!

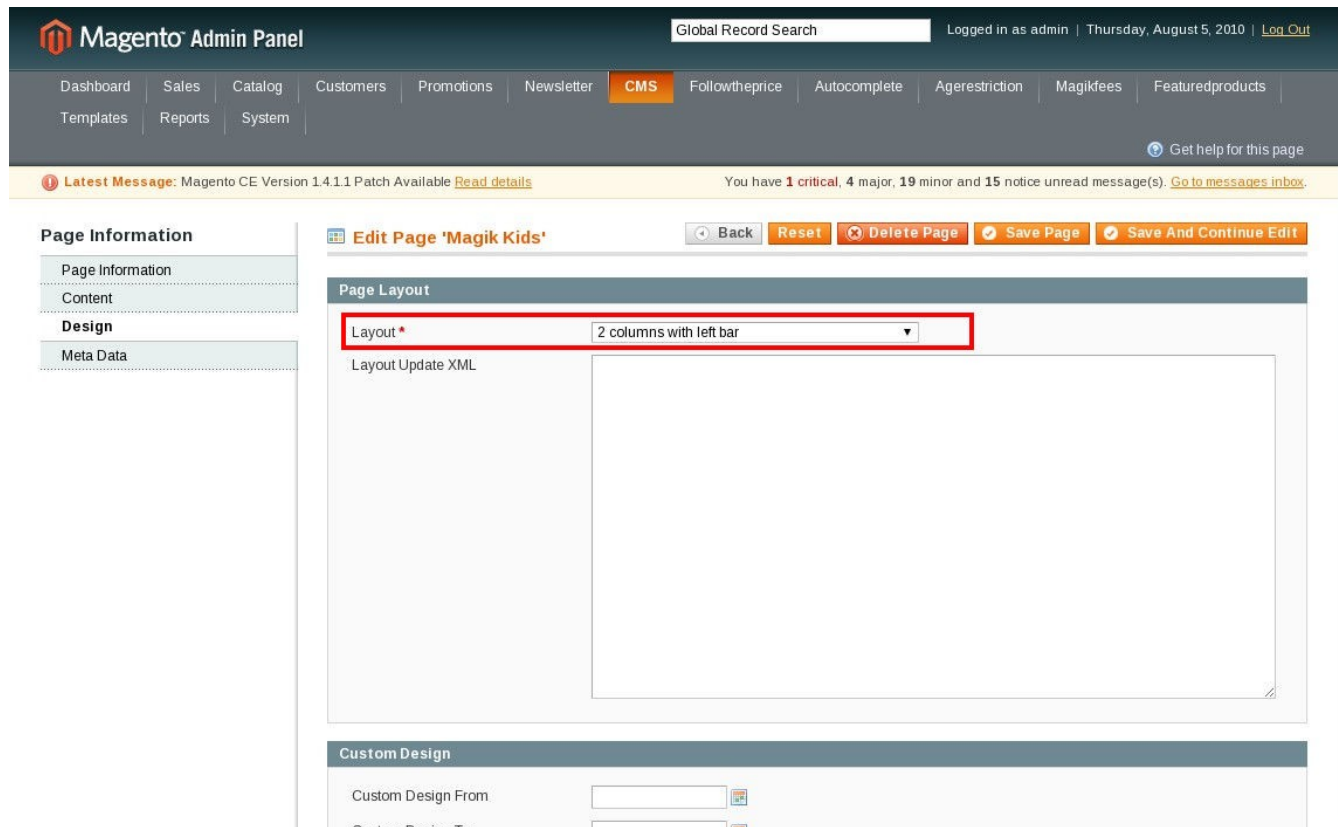

Support:

This theme is provided 1year of maintenance & updates or enhancements.

Please [contact us](#) to discuss further with your customization requirements.

To install the theme please follow the steps given below:

1. Copy app directory into your magento store under /app folder.
2. Copy skin directory into your magento store under /skin folder.
3. In Admin choose "CMS" => "Manage Pages". Create home page with "2columns-left layout".

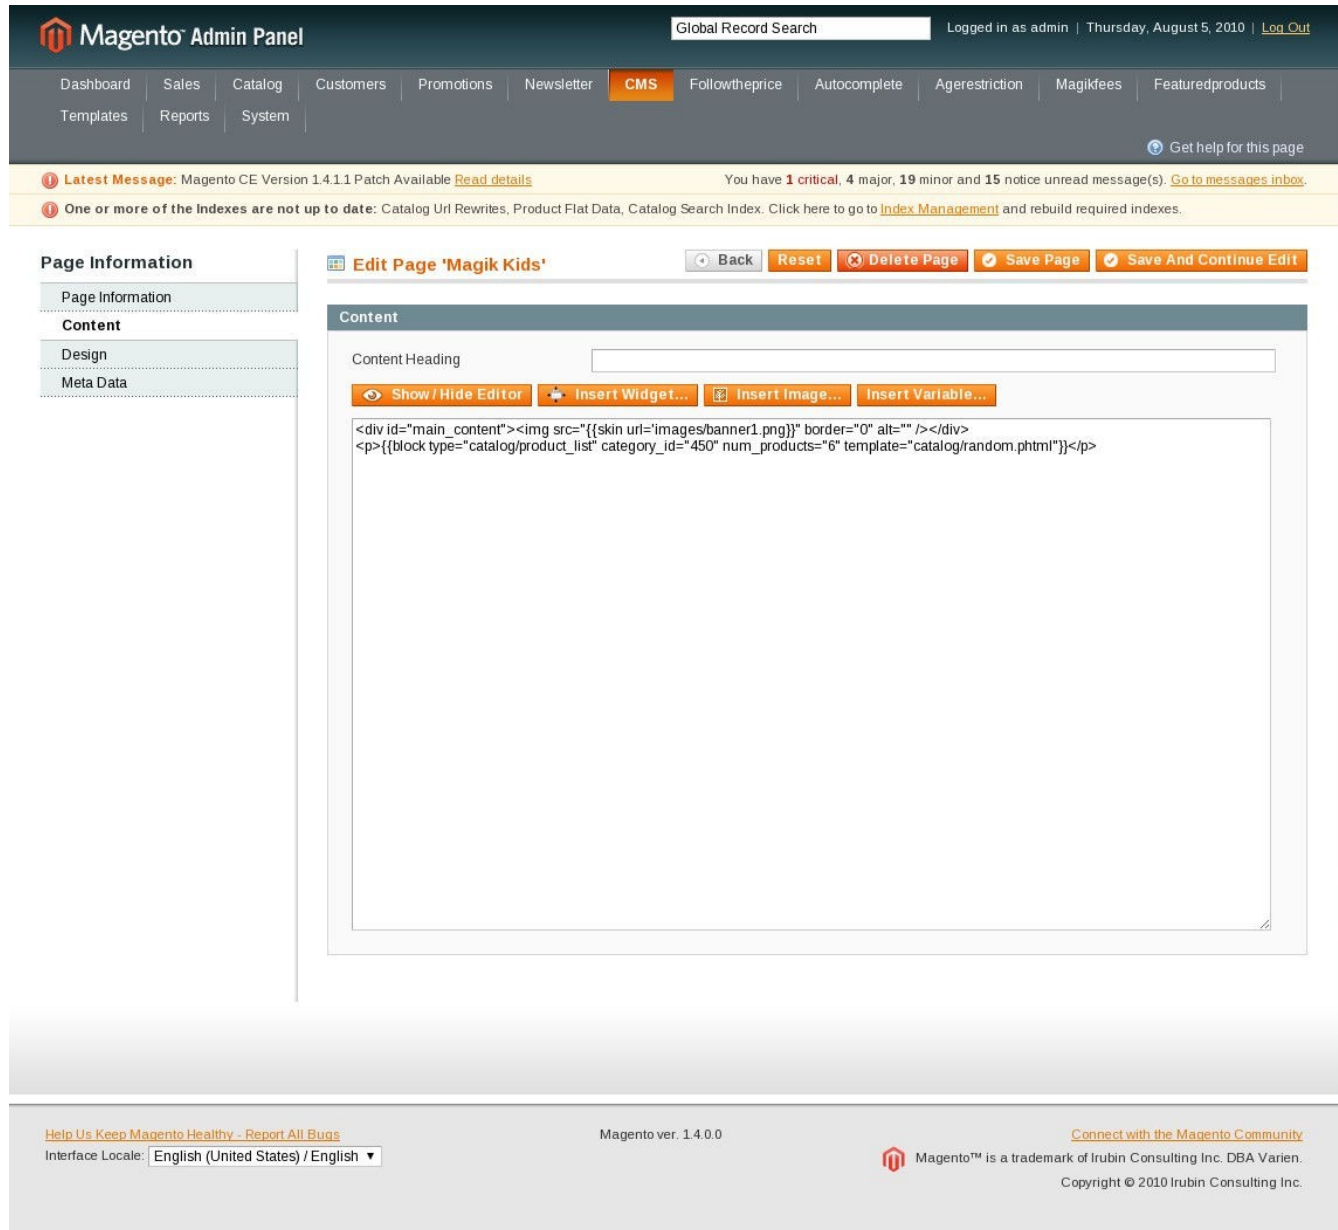

The screenshot displays the Magento Admin Panel interface. At the top, the 'Magento Admin Panel' header includes a search bar and user information. Below this is a navigation menu with 'CMS' highlighted. A message banner at the top indicates a 'Latest Message: Magento CE Version 1.4.1.1 Patch Available'. The main content area is titled 'Edit Page 'Magik Kids'' and features several action buttons: 'Back', 'Reset', 'Delete Page', 'Save Page', and 'Save And Continue Edit'. On the left, a 'Page Information' sidebar lists 'Page Information', 'Content', 'Design', and 'Meta Data'. The 'Page Layout' section shows a dropdown menu for 'Layout' set to '2 columns with left bar', which is highlighted with a red rectangular box. Below this is a 'Layout Update XML' text area. At the bottom, the 'Custom Design' section includes input fields for 'Custom Design From' and 'Custom Design To'.

4. Adding following lines of code in the "Home page content" part.

```
<div id="main_content"></div>  
<p>{{block type="catalog/product_list" category_id="450" num_products="6"  
template="catalog/random.phtml"}}</p>
```

Note - In the above block "category_id" will be specific to your magento store.

5. Assign this page as your home page from "System" => "Configuration" => "Web" => "Default Pages".
