

# Magik Wedding Theme – Installation & Configuration Instruction

Magik Wedding is a Magento theme specifically built for stores that are selling wedding clothes ,wedding jewelry and wedding footwear for men and women . You can buy, download and get the theme up and ready on your site very quickly. The theme is tested across all popular browsers, is designed to be SEO friendly and is built without altering the code Magento theme structure so you can make small customizations easily. Magik Wedding play nice with all the major browsers. The following browsers have been personally verified by us: Internet Explorer 6.0+, Firefox 2+, Opera 9+, Safari 3+ and Chrome 0.2+!

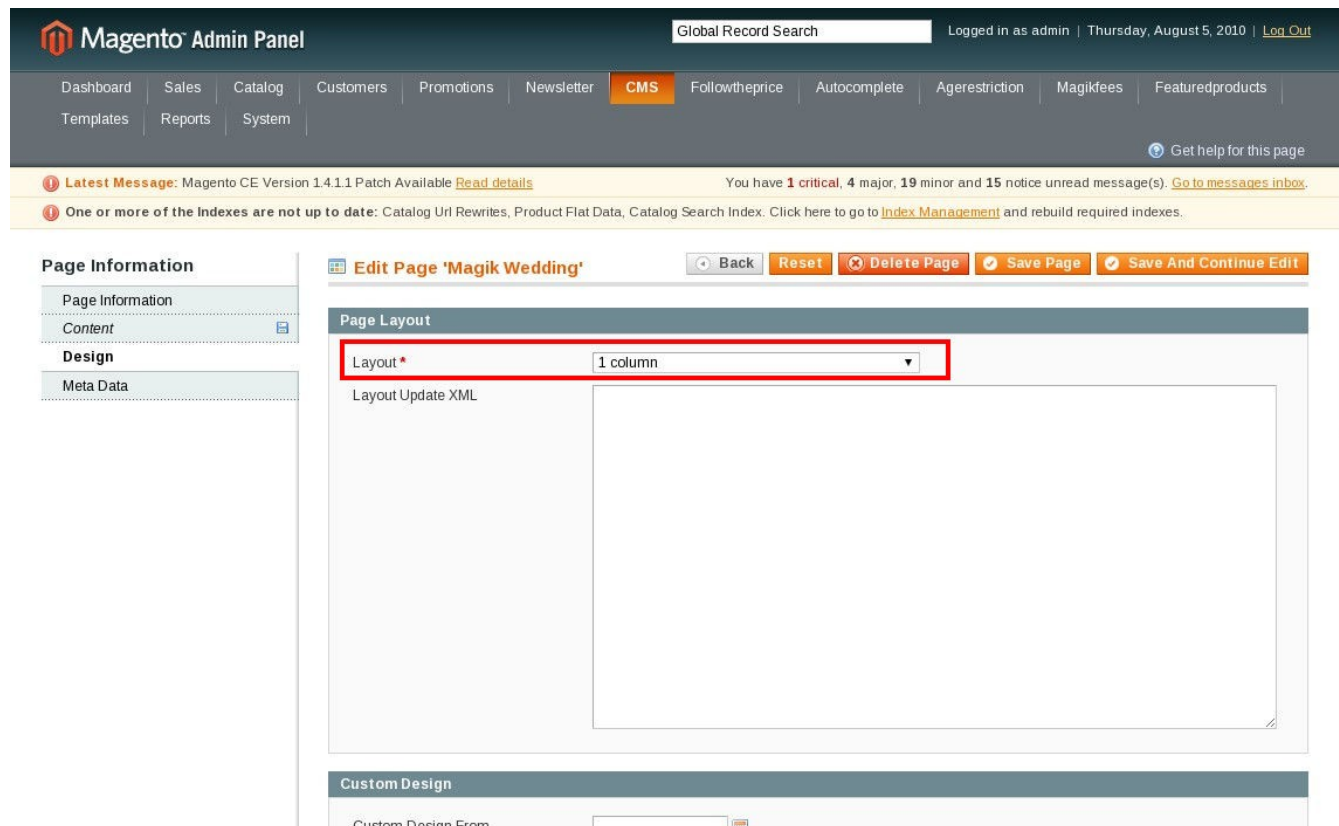

## Support:

This theme is provided 1year of maintenance & updates or enhancements.

Please [contact us](#) to discuss further with your customization requirements.

To install the theme please follow the steps given below:

1. Copy app directory into your magento store under /app folder.
2. Copy skin directory into your magento store under /skin folder.
3. In Admin choose "CMS" => "Manage Pages". Create home page with "1column layout".

The screenshot displays the Magento Admin Panel interface. At the top, the navigation menu includes 'Dashboard', 'Sales', 'Catalog', 'Customers', 'Promotions', 'Newsletter', 'CMS' (highlighted), 'Followtheprice', 'Autocomplete', 'Agerstriction', 'Magikfees', and 'Featuredproducts'. Below the navigation, there are two messages: 'Latest Message: Magento CE Version 1.4.1.1 Patch Available' and 'One or more of the indexes are not up to date'. The main content area is titled 'Edit Page 'Magik Wedding'' and features a 'Page Layout' section with a dropdown menu set to '1 column', which is highlighted with a red box. Other sections visible include 'Page Information' (with sub-sections for Page Information, Content, Design, and Meta Data) and 'Custom Design'.

4. Adding following lines of code in the "Home page content" part.

```
<p>{{block type="catalog/product_list" category_id="465" num_products="4"
template="catalog/random.phtml"}}</p>
```

**Note - In the above block "category\_id" will be specific to your magento store.**

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with the Magento logo and 'Admin Panel' text. A search bar and user information are also present. Below the navigation bar, there are several tabs: Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS (highlighted), Follow the price, Autocomplete, Age restriction, Magik fees, and Featured products. A sidebar on the left contains 'Page Information' and 'Content' sections. The main content area is titled 'Edit Page 'Magik Wedding'' and includes buttons for 'Back', 'Reset', 'Delete Page', 'Save Page', and 'Save And Continue Edit'. The 'Content' section has a 'Content Heading' field and a 'Show / Hide Editor' button. The main content area contains the code: 

```
<p>{{block type="catalog/product_list" category_id="465" num_products="4" template="catalog/random.phtml"}}</p>
```

5. Assign this page as your home page from "System" => "Configuration" => "Web" => "Default Pages".

## Magik Wedding Theme on Magento 1.4.1

Magik Wedding is tested upto Magento 1.4.0 but you can use this theme if you have upgraded your Magento version to 1.4.1. Just do the followings:

Go to **app/design/frontend/default/magik\_wedding/layout/page.xml**

change the line

```
<block type="core/profiler" output="toHtml"/>
```

with this

```
<block type="core/profiler" output="toHtml" name="core_profiler"/>
```
