

## Magik Featured Product Slider – Installation & Configuration Instructions

Magik Featured Products extension enables store owners to showcase their featured products with a cool gliding effect scrolling either horizontally or vertically on their Store home page. If you have more than one store with single Magento installation, this extension will work for every new store you create. All the products marked as "FEATURED" will be displayed in a glider. If you do not wish to showcase default images of your featured products, you have an option to set banner images hooked with your featured product. These banner images will be scrolled just like featured product images.

### Features:

1. Showcase Featured Products
2. Showcase Image Banners as featured products.
3. Showcase Store-wise Featured Products.

### Also Includes:

1. 30 day money back guarantee.
2. Free extension updates.

### Installation Instructions:

Step 1: Upload Magik Featured Products Extension at the correct path. You will find the path information along with the extension release.

Step 2: Copy css & js file from skin directory into your theme's skin directory.

Include the css & js file in your theme's page.xml file under "default" > "head" block as follows -  
<action method="addItem"><type>skin\_js</type><name>js/gliderproduct.js</name></action>  
<action method="addCss"><stylesheet>css/gliderproduct.css</stylesheet></action>

Step 3: Once all the files, folders are copied to the appropriate directory just log into your Magento control panel. Include following line on code in your CMS home page where you want to add slider -  
{ {block type="featuredproducts/featuredproducts"  
template="featuredproducts/featuredproducts.phtml" } }

Step 4: You will see a new Tab "Featuredproducts" in Admin bar. When you click on "Featured" .You will see two options "Product View and Image View".

### Product View -

For adding products as Featured to slider:-

1. Go to Admin Panel > Catalog > Manage Products >Edit the product which you wish to add as Featured. In General Section you find a attribute called as "Featured Product". Select yes from the drop down and click save.

Featured Product	<input type="text" value="Yes"/>	[GLOBAL]
------------------	----------------------------------	----------

2. Then go to "Featured" > Product View , turn product view on and select the "Number of products to display" from the drop down which are to be shown as featured and click on save.
